PK22™ - SPECIAL EDITION NOBLE BY NATURE

This special edition PK22™ lounge chair in Smoked Grey is a tribute to natural materials and outstanding form

PRODUCT DESCRIPTION

We present the subtle silhouette of a genuine design classic in a special edition available for purchase one year only. The leather upholstery is texture rich and the warm grey colour reflects a contemporary version of a timeless palette. Common for all Kjærholm pieces is an effortless expression brought to life by immensely skilful techniques mastered by our experienced production team. Smoked grey is in the warm end of the earthy colour palette. Mix it with bright colours to create beautiful contrasts or style the special edition PK22™ with other earthy tones for a classic, clean-cut interior.

In this design, nature and its extraordinary features takes the lead. To contrast the warm and seductive Nuance leather, the crisp, almost cooling steel base creates a solid foundation for a timeless design piece. No matter the room or space that inhabits it, this special edition PK22 is equally made to love and to last.

DISCOVER THE PK33™ AND PK91™ STOOLS IN THE SPECIAL EDITION LEATHER

This special edition campaign furthermore includes the PK33™ and PK91™ stools. Complement the living room with two other outstanding Kjærholm pieces dressed in Nuance leather. The three-legged PK33 stool and the flexible PK91 folding stool are the perfect fit for the PK22 lounge chair. They can be used in multiple ways – as a footstool for relaxation, as seating for extra guests or as a side table for coffee table books.

NUANCE LEATHER

The special edition PK22™ is upholstered in Nuance leather that offers a durable, visual and tactile experience. Every nuance of grey is highlighted by the leather's texture and its natural patterns and imperfections. Touching it, you instantly sense its softness and authenticity.
